BOAT SHRINK WRAP RECYCLING CHANGES

We have been informed that as of April 2019, shrink wrap will no longer be accepted at the transfer stations and have been advised of alternative disposal/recycling options.

According to CapeCod.com:

(<https://www.capecod.com/newscenter/shrink-wrap-disposal-program-begins/>)

Woods Hole Sea Grant is conducting its annual shrink wrap collection program for mariners unwrapping their boats after winter storage.

Cape residents can bring clean, white shrink wrap to the Bourne Integrated Solid Waste Management Facility from 9-noon on Tuesdays, the Dennis Transfer Station from 8-11 on Sundays and the Eastham Transfer Station on Thursdays from noon-3.

Dump stickers are not needed and the program will run from April 16th to June 3th as long as space remains.

Officials with the program say it is only for white wrap and any foreign material must be removed, including doors, straps, zippers, mud, dirt and leaves. The material is then to be bundled and secured with a strap made from the wrapping to reduce space necessary for its disposal."

According to one of the representative at the transfer station we spoke with this week, commercial and residential disposal will both be allowed to take advantage of the free program during the times listed.

Thank you for your understanding
